

**You will need:** undecorated cupcakes, a knife or spoon, small sweets e.g. Skittles, fondant icing, rolling pin, circular cookie cutters.

Cut a hole in the top of a cupcake with a spoon or a knife. Fill the hole with sweets.

Roll out some fondant icing and cut out a circle of it that is big enough to cover the top of your cupcake.

Cover the cupcake with the fondant and decorate it (maybe with the initial letter of your name). The sweets will be hidden under the icing and protected by it.

Bite into the cake to reveal the protected sweets
